

Table 2. Cosmetic suggested classes for nanocellulose application in this study, their recipes or formulation accordingly function and description accordingly EU regulation [6] in 3 main categories of importance (Small, medium and large considering the circle size)

Function	Description	Application proximity for nanocellulose				References
		GRADE (5 to 15)	(+)/5	(+)/10	(+)/15	
ABSORBENT	Taking up water- and/or oil-soluble (dissolved or finely dispersed) substances.	10		x		[6]
ANTI-SEBUM	Helping control sebum production.	10		x		[6]
ANTISTATIC	Preventing and/or reducing static electricity by neutralising electrical charge on surfaces.	5	x			[6]
ASTRINGENT	Contracting and/or tightening the skin.	5	x			[6]
BINDING	Providing adhesive properties during and after compression in cosmetic tablets and/or cakes.	15			x	[6]
BUFFERING	Stabilising the pH of an aqueous medium in a narrow range even if an acid or base is added. Altering and/or maintaining a cosmetic product's pH at the desired level.	5	x			[6]
BULKING	Non-reactive (chemically inert), solid ingredients that dilute other solids and/or increase the volume of cosmetic products.	15			x	[6]
CHELATING	Forming complexes with metal ions which could affect the stability and/or appearance of cosmetics.	10		x		[6]
COLORANT	Exclusively or mainly intended to colour the cosmetic product, the body as a whole or certain parts thereof, by absorption or reflection of visible light; (precursors of oxidative hair colorants shall be deemed colorants). All authorised colorants are substances in the positive list of Annex IV to the Cosmetics Regulation 1223/2009.	5	x			[6]
DISPERSING NON-SURFACTANT	Facilitating the dispersion of solids in liquids. They function primarily by coating the solid through the process of adsorption, thus changing the surface characteristic of the suspended solid.	5	x			[6]
EXFOLIATING	Initiating and/or accelerating removal of the layers of dead skin cells from the skin surface.	5	x			[6]
FILM FORMING	Producing (upon application) a continuous film on the skin, hair or nails.	15			x	[6]
FOAMING	Trapping numerous small bubbles of air or other gas within a small volume of liquid by modifying the surface tension of the liquid.	5	x			[6]
GEL FORMING	Giving the consistency of a gel (a semi-solid preparation with some elasticity) to a liquid preparation.	15			x	[6]

Ano VI, v.1 2026 | submissão: 02/02/2026 | aceito: 04/02/2026 | publicação: 06/02/2026

HUMECTANT	Retaining and/or preserving the moisture in a product during use.	15			x	[6]
MOISTURISING	Increasing the water content of the skin and keeping it soft and smooth.	15			x	[6]
NAIL CONDITIONING	Improving and/or enhancing the cosmetic characteristics of the nail (moisturizing, increasing sheen, reducing brittleness and flaking, etc.).	15			x	[6]
NOT REPORTED	No function currently reported	15			x	[6]
OCCLUSIVE	Preventing and/or slowing down the evaporation of water from the skin surface.	5	x			[6]
PLASTICISER	Softening and making supple synthetic polymers that otherwise could not be easily deformed, spread or worked out.	5	x			[6]
SKIN CONDITIONING - EMOLLIENT	Acting as lubricants on the skin surface providing the skin with a soft and smooth appearance.	5	x			[6]
SKIN CONDITIONING - HUMECTANT	Increasing the water content of the top layers of the skin. Humectants are primarily hygroscopic agents drawing moisture from the surrounding air.	15			x	[6]
SKIN CONDITIONING - OCCLUSIVE	Retarding the evaporation of water from the skin surface. Occlusives are generally lipids which tend to remain on the skin surface and thus increase the water content of skin.	5	x			[6]
SURFACE MODIFIER	Applied to other cosmetic components to make them more hydrophilic or hydrophobic, or to modify their physical/chemical properties (in some cases, surface modifiers may form a covalent bond with substrates).	15			x	[6]
SURFACTANT	Helping other ingredients that normally do not mix to dissolve or disperse in one another. Surfactants are also called a surface active agents as they lower the surface tension of water or reduce the interfacial tension between immiscible components.	5	x			[6]
SURFACTANT - CLEANSING	Wetting body surfaces, emulsifying or solubilizing oils, and suspending soil (generally, such ingredients contribute to the foaming and lathering properties of cleansing products).	5	x			[6]
SURFACTANT - DISPERSING	Helping distribute an insoluble solid in a liquid phase.	5	x			[6]
SURFACTANT - EMULSIFYING	Helping suspensions or dispersions of liquids in a second liquid by reducing the surface tension of the substances to be emulsified.	5	x			[6]
SURFACTANT - FOAM BOOSTING	Increasing foaming capacity and/or stabilize foams in general.	5	x			[6]
SURFACTANT - SOLUBILIZING	Helping another component (solute) to dissolve in a medium in which it is not normally soluble.	5	x			[6]
VISCOSITY CONTROLLING	Increasing or decreasing the viscosity (thickness) of cosmetics.	15			x	[6]

Ano VI, v.1 2026 | submissão: 02/02/2026 | aceito: 04/02/2026 | publicação: 06/02/2026

pH ADJUSTERS	Controlling the pH of cosmetic products.	5	x			[6]
--------------	--	---	---	--	--	-----

Table 3. FDA Cosmetics product categories and subcategories [4]

Cosmetic Product Categories and Codes			
ID	Categories	Sub-categories	Reference
1	Baby products	Baby shampoos	[4]
		Lotions, oil, powders and creams	
		Baby wipes	
		Other baby products	
2	Bath preparations	Bath oils, tablets and salts	
		Bubble baths	
		Bath capsules	
		Other bath preparations	
3	Eye makeup preparations (other than children's eye makeup preparations)	Eyebrow pencils	
		Eyeliners	
		Eye shadows	
		Eye lotions	
		Eye makeup removers	
		False eyelashes	
		Mascaras	
		Eyelash and eyebrow adhesives, glues, and sealants	
		Eyelash and eyebrow preparations (primers, conditioners, serums, fortifiers)	
		Eyelash cleansers	
Other eye makeup preparations			
4	Children's eye makeup preparations	Children's eyeshadows	
		Other children's eye makeup	
5	Fragrance preparations	Colognes and toilet waters	
		Perfumes	
		Powders (dusting and talcum) (excluding aftershave talc)	
		Other fragrance preparations	
6	Hair preparations (non-coloring)	Hair conditioners	
		Hair sprays (aerosol fixatives)	
		Hair straighteners	
		Permanent waves	
		Rinses (non-coloring)	
		Shampoos (non-coloring)	
		Tonics, dressings, and other hair grooming aids	
		Wave sets	
Other hair preparations			
7	Hair coloring preparations	Hair dyes and colors (all types requiring caution statement and patch test)	

		Hair tints	
		Hair rinses (coloring)	
		Hair shampoos (coloring)	
		Hair color sprays (aerosol)	
		Hair lighteners with color	
		Hair bleaches	
		Eyelash and eyebrow dyes	
		Other hair coloring preparations	
8	Makeup preparations (not eye)(other than makeup preparations for children)	Blushers and rouges (all types)	
		Face powders	
		Foundations	
		Leg and body paints	
		Lipsticks and lip glosses	
		Makeup bases	
		Makeup fixatives	
		Other makeup preparations	
9	Makeup preparations for children (not eye)	Children's blushers and rouges (all types)	
		Children's face paints	
		Children's face powders	
		Children's foundations	
		Children's lipsticks and lip glosses	
		Children's color hairsprays	
		Other children's makeup	
10	Manicuring preparations	Basecoats and undercoats	
		Cuticle softeners	
		Nail creams and lotions	
		Nail extenders	
		Nail polishes and enamels	
		Nail polish and enamel removers	
		Other manicuring preparations	
11	Oral products	Dentifrices (aerosols, liquids, pastes, and powders)	
		Mouthwashes and breath fresheners (liquids and sprays)	
		Other oral products	
12	Personal cleanliness	Bath soaps and body washes	
		Deodorants (underarm)	
		Douches	
		Feminine deodorants	
		Disposable wipes	
		Other personal cleanliness products	
13	Shaving preparations	Aftershave lotions	
		Beard softeners	
		Men's talcum	
		Pre-shave lotions (all types)	

		Shaving creams (aerosol, brushless, and lather)	
		Shaving soaps (cakes, sticks, etc.)	
		Other shaving preparation products	
14	Skin care preparations, (creams, lotions, powder, and sprays)	Cleansing (cold creams, cleansing lotions, liquids, and pads)	
		Depilatories	
		Face and neck (excluding shaving preparations)	
		Body and hand (excluding shaving preparations)	
		Foot powders and sprays	
		Moisturizing	
		Night	
		Paste masks (mud packs)	
		Skin fresheners	
		Other skin care preparations	
15	Suntan preparations	Suntan gels, creams, and liquids	
		Indoor tanning preparations	
		Other suntan preparations	
16	Tattoo preparations	Permanent tattoo inks	
		Temporary tattoo inks	
		Other tattoo preparations	
17	Other preparations (i.e., those preparations that do not fit another category)	No subclasses	

Table 4. ANVISA Cosmetics product categories and subcategories [5]

Cosmetic Product Categories and Codes			
ID	Categories	Sub-categories	Reference
1	Products Grade 1	Água de colônia, água perfumada, colônia, perfume e extrato aromático	[5]
2		Amolecedor de cutícula não cáustico	
3		Aromatizante bucal	
4		Base facial e/ou corporal	
5		Batom e brilho labial	
6		Blush ou rouge	
7		Clareador para unhas	
8		Cola ou fixador de cola para aderir cabelos ou perucas no couro cabeludo	
9		Cola ou fixador de cola para cílios.	
10		Cola ou fixador de cola para promover a extensão dos fios capilares fixados ao couro cabeludo	
11		Cola ou fixador de cola para unhas	
12		Condicionador ou creme com enxágue ou enxagutório capilar	

13	Condicionador sem enxágue
14	Corretivo facial
15	Delineador para lábios, olhos e sobrancelhas
16	Demaquilante
17	Dentífrício
18	Depilatório mecânico ou epilatório
19	Desodorante axilar
20	Desodorante colônia
21	Desodorante corporal
22	Desodorante pédico
23	Enxaguatório bucal aromatizante
24	Esmalte, verniz, brilho para unhas
25	Fitas para remoção mecânica de impurezas da pele
26	Fortalecedor de unhas
27	Lápis para lábios, olhos e sobrancelhas
28	Lenços umedecidos para limpeza e/ou higiene corporal
29	Loção tônica facial
30	Maquiagem bronzeadora simulatória
31	Maquiagem facial e/ou corporal
32	Máscara para cílios
33	Modelador e/ou fixador de sobrancelhas
34	Neutralizante para permanente e alisante
35	Odorizante de Ambiente
36	Pó facial
37	Preparações cosméticas anticelulite para as pernas ou para o corpo em geral
38	Preparações cosméticas esfoliantes ("peeling") mecânicos corporais e/ou faciais
39	Preparações cosméticas para hidratação das unhas
40	Preparações cosméticas para umectação, hidratação e/ou refrescância para as pernas ou para o corpo em geral
41	Preparações cosméticas com ação antirrugas
42	Preparações cosméticas para umectação, hidratação e/ou refrescância do rosto, mãos, pés
43	Preparações cosméticas antiqueda com enxágue
44	Preparações cosméticas antiqueda sem enxágue
45	Preparações cosméticas com enxágue para reparar, umectar, hidratar e/ou restaurar os cabelos
46	Preparações cosméticas para fortalecimento capilar com enxágue
47	Preparações cosméticas para fortalecimento capilar sem

		enxágue	
		Preparações cosméticas sem enxágue para fixar, modelar, facilitar ou finalizar o penteado, reparar, umectar, hidratar, restaurar, proteger os cabelos do calor e/ou maquiá-los	
48		Preparações de higiene pessoal para limpeza e/ou higiene da pele desde que se indique no modo de uso sua remoção após a aplicação, ou que se indique a utilização do produto com o auxílio de um elemento que permita a remoção mecânica de impurezas	
49			
50		Produto para área dos olhos	
51		Produtos para banho e/ou imersão	
52		Produtos para barbear	
53		Produto para evitar roer unhas	
54		Produtos para fixar e/ou modelar pelos faciais, exceto sobrancelhas e cílios	
55		Produto para limpeza e/ou higiene ou removedor de cola para cílios	
56		Produto para limpeza e/ou higiene ou removedor de cola para unhas	
57		Produtos para pré-barbear	
58		Produtos para pós-barbear	
59		Protetor labial	
60		Removedor de cola para fixar cabelos ou perucas no couro cabeludo	
61		Removedor de cola para promover a extensão dos fios capilares fixados ao couro cabeludo	
62		Removedor de esmalte	
63		Sabonete abrasivo e/ou esfoliante mecânico	
64		Sabonete desodorante	
65		Sabonete facial e/ou corporal	
66		Secante de esmalte	
67		Sombra para as pálpebras	
68		Talco e/ou pó	
69		Tônico ou loção capilar	
70		Xampu	
71		Xampu condicionador	
72	Products Grade 2	Água oxigenada para uso em cabelo ou pelo corporal como descolorante, revelador ou oxidante, exceto os para uso medicinal	
73		Amolecedor de cutícula cáustico	
74		Antitranspirante axilar	
75		Antitranspirante pédico	
76		Ativador ou acelerador de bronzeado	

77	Autobronzeador ou bronzeador simulatório
78	Bronzeador
79	Clareador da pele
80	Clareador ou descolorante para cabelos e/ou pelos do corpo
81	Dentifrício anticárie
82	Dentifrício antiplaca
83	Dentifrício antitártaro
84	Dentifrício clareador
85	Dentifrício e enxaguatório bucal para pessoas com dentes sensíveis, desde que não se proclame como agente de tratamento
86	Depilatório químico
87	Desodorante antitranspirante axilar
88	Desodorante antitranspirante pédico
89	Enxaguatório bucal antibacterianos ou antissépticos
90	Enxaguatório bucal antiplaca
91	Esfoliante ("peeling") químico
92	Lenços umedecidos antibacterianos ou antissépticos para mãos
93	Preparações cosméticas antibacterianas ou antissépticas para as mãos.
94	Preparações cosméticas indicadas como equipamento de proteção individual (EPI) para o trabalho.
95	Preparações cosméticas para pele com estrias
96	Preparações cosméticas para pele e lábios, com ação fotoprotetora como benefício adicional, mas não o principal (multifuncional)
97	Produtos antibacterianos ou antissépticos para barbear
98	Produtos antibacterianos ou antissépticos para pré-barbear
99	Produtos antibacterianos ou antissépticos para pós-barbear
100	Produtos capilares anticaspa com enxágue
101	Produtos capilares anticaspa sem enxágue
102	Produtos destinados ao público infantil
103	Produtos destinados para as gestantes
104	Produtos destinados para pele sensível, desde que não se proclame como agente de tratamento
105	Produtos para alisar e tingir os cabelos
106	Produtos para alisar os cabelos
107	Produtos para limpeza e/ou higiene corporal de pessoas imobilizadas
108	Produtos para limpeza e/ou higiene íntima, desde que não

Ano VI, v.1 2026 | submissão: 02/02/2026 | aceito: 04/02/2026 | publicação: 06/02/2026

		alegue ação antimicrobiana:	
109		Desodorante	
110		Sabonete	
111		Lenços Umedecidos	
112		Produtos para ondular os cabelos	
113		Produtos para pele acneica	
114		Produtos para sistemas de unhas artificiais	
115		Protetor solar	
116		Repelente de insetos	
117		Sabonete antibacteriano ou antisséptico	
118		Talco ou pó desodorante antibacteriano ou antisséptico	
119		Tintura capilar temporária, progressiva ou permanente	
120		Tintura para pelos corporais. " (NR)	

Table 5. EU Cosmetics product functions [34]

Cosmetic Product Categories and Codes			
ID	Functions	Description	Reference
1	ABRASIVE	Removing unwanted tissue or foreign materials from various body surfaces, including mechanical tooth cleaning and/or gloss improvement.	34
2	ABSORBENT	Taking up water- and/or oil-soluble (dissolved or finely dispersed) substances.	
3	ADHESIVE	Tending to unite/bind/bond surfaces together.	
4	ANTI-SEBORRHEIC	Preventing or relieving the symptoms of seborrhea and/or seborrheic dermatitis, including dandruff.	
5	ANTI-SEBUM	Helping control sebum production.	
6	ANTICAKING	Preventing agglomeration of particulate solids into lumps or hard masses (cohesive cake), thus allowing free flow of particles.	
7	ANTICORROSIVE	Preventing and or inhibiting the corrosion of the packaging material.	
8	ANTIFOAMING	Suppressing foam during manufacturing or reducing the tendency of finished products to generate foam.	
9	ANTIMICROBIAL	Preventing and/or slowing down microbial growth.	
10	ANTIOXIDANT	Inhibiting reactions promoted by oxygen, thus avoiding oxidation and rancidity.	
11	ANTIPERSPIRANT	Reducing perspiration.	
12	ANTIPLAQUE	Helping protect against plaque.	
13	ANTISTATIC	Preventing and/or reducing static electricity by neutralising electrical charge on surfaces.	
14	ASTRINGENT	Contracting and/or tightening the skin.	
15	BINDING	Providing adhesive properties during and after compression in cosmetic tablets and/or cakes.	

16	BLEACHING	Bleaching or lightening the shade of hair and/or skin.
17	BUFFERING	Stabilising the pH of an aqueous medium in a narrow range even if an acid or base is added. Altering and/or maintaining a cosmetic product's pH at the desired level.
18	BULKING	Non-reactive (chemically inert), solid ingredients that dilute other solids and/or increase the volume of cosmetic products.
19	CHELATING	Forming complexes with metal ions which could affect the stability and/or appearance of cosmetics.
20	CLEANSING	Helping to keep the body surface clean.
21	COLORANT	Exclusively or mainly intended to colour the cosmetic product, the body as a whole or certain parts thereof, by absorption or reflection of visible light; (precursors of oxidative hair colorants shall be deemed colorants).
22	DENATURANT	Rendering cosmetics unpalatable. Mostly added to cosmetics containing ethyl alcohol to make it unsuitable for ingestion.
23	DEODORANT	Reducing and/or eliminating unpleasant odour. Contributing against the formation of malodour on body surfaces.
24	DEPILATORY	Breaking down the the mechanical strength of hair fibers so that they can be removed by mild scraping/rubbing.
25	DETANGLING	Reducing or eliminating hair intertwining due to hair surface alteration or damage and, thus, helping combing.
26	DISPERSING NON-SURFACTANT	Facilitating the dispersion of solids in liquids. They function primarily by coating the solid through the process of adsorption, thus changing the surface characteristic of the suspended solid.
27	EMULSION STABILISING	Helping the process of emulsification and improving emulsion stability and shelf-life.
28	EPILATING	Applied to the skin, and stripped off quickly to remove hair. With epilation the entire hair is removed from the follicle, whereas with depilation the hair is removed only to the surface of the skin.
29	EXFOLIATING	Initiating and/or accelerating removal of the layers of dead skin cells from the skin surface.
30	EYELASH CONDITIONING	Conditioning and enhancing the appearance of eyelashes. Improving the gloss or sheen of eyelashes, coating the eyelash hair to increase the appearance of its diameter and length, or helping with the separation of the eyelash hair.
31	FILM FORMING	Producing (upon application) a continuous film on the skin, hair or nails.
32	FLAVOURING	Imparting taste and/or flavour to a cosmetic product.
33	FOAMING	Trapping numerous small bubbles of air or other gas within a small

		volume of liquid by modifying the surface tension of the liquid.
34	FRAGRANCE	Imparting an odour or taste. Creating a perceivable pleasant smell and/or masking a bad smell.
35	GEL FORMING	Giving the consistency of a gel (a semi-solid preparation with some elasticity) to a liquid preparation.
36	HAIR CONDITIONING	Enhancing the appearance and feel of hair. Leaving the hair easy to comb, supple, soft and shiny and/or imparting volume, lightness, gloss, texture, etc.
37	HAIR DYEING	Imparting color to hair. Hair dyeing preparations may be temporary, semi-permanent, permanent, depending on the length of time the colorant remains on the hair.
38	HAIR FIXING	Permitting physical control of hair style.
39	HAIR WAVING OR STRAIGHTENING	Modifying the chemical structure of the hair, allowing it to be set in the style required (permanent waves or hair straightening).
40	HUMECTANT	Retaining and/or preserving the moisture in a product during use.
41	KERATOLYTIC	Helping to eliminate the dead cells of the stratum corneum.
42	LIGHT STABILIZER	Protecting the cosmetic product from deterioration effects of light.
43	LYTIC	Helping to break down lipids, proteins, and polysaccharides into smaller components, usually by the action of enzymes.
44	MOISTURISING	Increasing the water content of the skin and keeping it soft and smooth.
45	NAIL CONDITIONING	Improving and/or enhancing the cosmetic characteristics of the nail (moisturizing, increasing sheen, reducing brittleness and flaking, etc.).
46	NAIL SCULPTING	Forming a hard structure that resembles the nail plate.
47	NOT REPORTED	No function currently reported
48	OCCLUSIVE	Preventing and/or slowing down the evaporation of water from the skin surface.
49	OPACIFYING	Reducing transparency or translucency of cosmetics.
50	ORAL CARE	Providing cosmetic effects to the oral cavity, e.g. cleansing, deodorising, protecting.
51	OXIDISING	Changing the chemical nature of another ingredient by adding oxygen (or removing hydrogen).
52	PEARLESCENT	Imparting a nacreous appearance to cosmetics.
53	PERFUMING	Used for perfume and aromatic raw materials.
54	PLASTICISER	Softening and making supple synthetic polymers that otherwise could not be easily deformed, spread or worked out.
55	PRESERVATIVE	Exclusively or mainly intended to inhibit the development of micro-organisms in the cosmetic product. All authorised preservatives are substances in the positive list of Annex V to the Cosmetics Regulation 1223/2009.

56	PROPELLANT	Generating pressure in an aerosol pack, expelling contents when the valve is opened. Some liquefied propellants can act as solvents.
57	REDUCING	Changing the chemical nature of another ingredient by adding hydrogen (or removing oxygen).
58	REFATTING	Replenishing the lipids of the hair or of the top layers of the skin.
59	REFRESHING	Imparting a pleasant freshness to the skin.
60	SKIN CONDITIONING	Maintaining the skin in good condition.
61	SKIN CONDITIONING - EMOLLIENT	Acting as lubricants on the skin surface providing the skin with a soft and smooth appearance.
62	SKIN CONDITIONING - HUMECTANT	Increasing the water content of the top layers of the skin. Humectants are primarily hygroscopic agents drawing moisture from the surrounding air.
63	SKIN CONDITIONING - MISCELLANEOUS	Enhancing the appearance of dry and/or damaged skin by reducing flaking and restoring suppleness.
64	SKIN CONDITIONING - OCCLUSIVE	Retarding the evaporation of water from the skin surface. Occlusives are generally lipids which tend to remain on the skin surface and thus increase the water content of skin.
65	SKIN PROTECTING	Helping to avoid harmful effects to the skin from external factors.
66	SLIP MODIFIER	Enhancing the flow properties of other ingredients without reacting chemically with them.
67	SMOOTHING	Seeking to achieve an even skin surface by decreasing roughness or irregularities.
68	SOLVENT	Dissolving other components of cosmetics. Solvents are usually liquids (aqueous and nonaqueous).
69	SOOTHING	Lightening discomfort of the skin or of the scalp.
70	SURFACE MODIFIER	Applied to other cosmetic components to make them more hydrophilic or hydrophobic, or to modify their physical/chemical properties (in some cases, surface modifiers may form a covalent bond with substrates).
71	SURFACTANT	Helping other ingredients that normally do not mix to dissolve or disperse in one another. Surfactants are also called a surface active agents as they lower the surface tension of water or reduce the interfacial tension between immiscible components.
72	SURFACTANT - CLEANSING	Wetting body surfaces, emulsifying or solubilizing oils, and suspending soil (generally, such ingredients contribute to the foaming and lathering properties of cleansing products).
73	SURFACTANT - DISPERSING	Helping distribute an insoluble solid in a liquid phase.
74	SURFACTANT - EMULSIFYING	Helping suspensions or dispersions of liquids in a second liquid by reducing the surface tension of the substances to be emulsified.

Ano VI, v.1 2026 | **submissão: 02/02/2026** | **aceito: 04/02/2026** | **publicação: 06/02/2026**

75	SURFACTANT - FOAM BOOSTING	Increasing foaming capacity and/or stabilize foams in general.
76	SURFACTANT - HYDROTROPE	Enhancing the water solubility of another surfactant.
77	SURFACTANT - SOLUBILIZING	Helping another component (solute) to dissolve in a medium in which it is not normally soluble.
78	TANNING	Darkening the skin with or without exposure to UV.
79	TONIC	Producing a feeling of well-being on skin and hair.
80	UV ABSORBER	Protecting the cosmetic product from the effects of UV-light.
81	UV FILTER	Exclusively or mainly intended to protect the skin and/or hair against certain UV radiation by absorbing, reflecting or scattering UV radiation. All authorised UV filters are substances in the positive list of Annex VI to the Cosmetics Regulation 1223/2009.
82	VISCOSITY CONTROLLING	Increasing or decreasing the viscosity (thickness) of cosmetics.
83	pH ADJUSTERS	Controlling the pH of cosmetic products.
